

IE 477 Fall 2020 Information on Preparing Presentation Video

For the video:

1. At least two days prior to the actual discussion meeting you should organize a Zoom meeting yourselves where all the group members are present. This would help you to update the presentation if needed.
2. Record the presentation via Zoom, while sharing the slides of your progress presentation.
3. At least the cameras of the presenters must be turned on during the presentation. (If possible, it will be better to have cameras of all members turned on.)
4. You should upload this video to the link provided via email prior to the discussion meeting. **More details will be provided** regarding the deadline and platform to upload. (DO NOT upload this video to YouTube or any other public platform.)
