

from Modest Staging to Effective Presentation Performance

Presenting is *the* key ingredient for any work where you want it to be appreciated by others. It does not matter whether it is a student project, an argument, an idea, a business case or a private request, it has to be presented in such a way that it would become understandable and acceptable.

Unfortunately, lacking of the simple skills and a few ethical tricks makes not only your presentation but your work, unsuccessful. It is a get rid of the boring audience but shoot them with your stage brilliance.

“from Modest Staging to Effective Presentation Performance” is a short tips and tricks seminar, aiming to support you and

your work while you are presenting it.

Hope to see you on February 17th, 2021 at 13:30.
