

IE375 Reading List Update for Scheduling

May 2020 – On-Line period

You are expected to understand and follow all the material, though some parts of it are not necessarily for responding quick questions, but rather require you to spend more time for implementation. This is typically what you will do if you are involved with a real-life scaled project.

7th Edition

Chapter 9 (except 9.7 -9.10)

Two-job Flow shop problem and parts of stochastic scheduling as well as issues regarding complexity mentioned in class (and are available in class notes) are the parts which you will not be responsible in the final exam.

6th Edition

Chapter 8 (except 8.7 -8.10)

Two-job Flow shop problem and parts of stochastic scheduling as well as issues regarding complexity mentioned in class (and are available in class notes) are the parts which you will not be responsible in the final exam.
